# Forms List

**The creation of forms** is simple but powerful by using dedicated form block to collect any kind of data and build your email lists . Forms can be easily published on standard Concrete CMS pages, without any effort.

This screenshot shows the 'Forms' management interface. At the top left, there is a bookmark icon and the text 'Forms'. At the top right, there is a blue button labeled '+ New Form'. Below this, a list of forms is displayed. The first form is 'Marketplace Subscription form', which is marked as 'Active' with a green pill. It was created on 'March 21st, 2022'. The form type is 'Subscription' and it is in 'English' (indicated by a flag icon). A three-dot menu icon is visible on the right side of the form entry.

This screenshot is identical to the one above, but with a context menu open over the three-dot menu icon of the 'Marketplace Subscription form' entry. The menu contains three options: 'Preview', 'Edit', and 'Delete'.
